Attendance of museums and galleries.

Galleries and museums are one of the most visited places ~~(everywhere)~~ whenever you are, not only being the main tourists' attractions but also keeping the sacred annals of history safe, yet open for everyone. I was assigned with the project on the attendance of museums and galleries in England. After collecting the important data for my research and analyzing the received information, I am now prepared to give you a full view on this topic.

100 First of all, I would like to draw your attention to the significant rise of attendance ~~(to)~~ in every museum and gallery on the list. British Museum is considered to be the most visited ^{place}, while Science Museum ~~star~~ - the least. Secondly, it seems like there has been a big jump in attendance between 2013 and 2015, with every place (except Natural History and Science Museums) getting at least 1 mln new visitors. At this rate, it is only natural to presume that the numbers of visits ~~will~~ to all the museums will increase with each passing year.

Despite this, Natural History Museum and Science Museum had suffered from a huge drop of attendants ~~(which is)~~ because of the admission charges which were introduced in 2014. However, the numbers of visitors were slowly increasing from 2015 until 2017. Unlike other museums, these two still get less visitors, which makes me wonder if there are any ways to ~~(increase)~~ attract new visitors.

If you ask me, I would recommend to introduce new special programmes which might draw on more tourist and regular ²⁵⁰ visitors. What is more, I think adding more entertainment aspects to these places would ~~(also)~~ appeal to both young people and elderly.

255

In conclusion, I want to say that it is tremendously important to keep the attendance of museums and galleries substantial and treat every piece of art and history respectively.
